With its soft swirls of violet, brown, and red, Colour Stream brings a unique, artistic flair to any indoor or outdoor space with its high durability and weather resistance. It is Ideal for paving, wall cladding, garden features, pool surrounds, and bespoke stone artifacts.

- ✓ Unique rainbow-like bands enhance traditional and contemporary designs, providing a natural warmth and character to the built environment while standing up well to the demands of outdoor exposure
- ✓ Low porosity and water absorption enhances its frost resistance and longevity in wet or freezing conditions

Physical Properties	
Apparent Density (kg/m <sup>3</sup> )	2,200 – 2,400
Water Absorption (%)	2.5 – 10.0

Mechanical Strength	
Compressive Strength (MPa)	100 – 150
Flexural Strength (MPa)	10 – 20

Dimensions, thicknesses, and configurations of slabs can be customised in accordance with specific project or client requirements. Technical data sheets, quality certifications, and laboratory test reports can be furnished upon request or as required by the project specifications. Images are digitally created for representational purposes to convey tone and character; natural stone may vary in colour and pattern.

All product descriptions, images, and specifications are provided for general information and illustrative purposes only. Natural stone is a product of nature; variations in colour, texture, and veining are inherent and should be expected. While every effort is made to ensure accuracy, the actual material may differ slightly from samples or photographs. Performance characteristics, such as durability and slip resistance, may vary depending on installation, finish, and maintenance. The company reserves the right to change product information without prior notice.
