

Midnight Rain

SLATE

Honed

Paving

Setts

Roofing

Midnight Rain captivates with its deep charcoal base and gentle tonal variations that evoke a sense of quiet drama. Its refined surface and naturally layered texture make it visually striking and inherently durable, perfect for elegant interiors and resilient outdoor landscapes.

- ✓ Inherent structural strength ensures reliable performance under demanding use
- ✓ Natural low water absorption enhances weather resistance and surface stability
- ✓ Flexural integrity allows versatility across paving, roofing, and architectural detailing

Physical Properties	
Apparent Density (kg/m ³)	2,600 – 2,800
Water Absorption (%)	1.0 – 1.5

Mechanical Strength	
Compressive Strength (MPa)	170 – 220
Flexural Strength (MPa)	30 – 40

Dimensions, thicknesses, and configurations of slabs can be customised in accordance with specific project or client requirements. Technical data sheets, quality certifications, and laboratory test reports can be furnished upon request or as required by the project specifications. Images are digitally created for representational purposes to convey tone and character; natural stone may vary in colour and pattern.

All product descriptions, images, and specifications are provided for general information and illustrative purposes only. Natural stone is a product of nature; variations in colour, texture, and veining are inherent and should be expected. While every effort is made to ensure accuracy, the actual material may differ slightly from samples or photographs. Performance characteristics, such as durability and slip resistance, may vary depending on installation, finish, and maintenance. The company reserves the right to change product information without prior notice.
