Architecture

Distinguished by its charcoal hue and shimmering crystalline texture, Midnight Star exudes a contemporary, polished sophistication. Its dense composition, excellent abrasion resistance, and stable structure make it an ideal material for premium architectural finishes and heavy-use environments alike.

- ✓ Surface durability ensures long-term resistance to wear and abrasion
- ✓ Structural integrity provides load-bearing and impact performance
- ✓ Low water absorption and dependable slip resistance make it suitable for indoors and outdoors

Physical Properties	
Apparent Density (kg/m <sup>3</sup> )	2,700 – 2,800
Water Absorption (%)	0.1 – 0.2

Mechanical Strength	
Compressive Strength (MPa)	150 – 160
Flexural Strength (MPa)	12 – 15

Dimensions, thicknesses, and configurations of slabs can be customised in accordance with specific project or client requirements. Technical data sheets, quality certifications, and laboratory test reports can be furnished upon request or as required by the project specifications. Images are digitally created for representational purposes to convey tone and character; natural stone may vary in colour and pattern.

All product descriptions, images, and specifications are provided for general information and illustrative purposes only. Natural stone is a product of nature; variations in colour, texture, and veining are inherent and should be expected. While every effort is made to ensure accuracy, the actual material may differ slightly from samples or photographs. Performance characteristics, such as durability and slip resistance, may vary depending on installation, finish, and maintenance. The company reserves the right to change product information without prior notice.
