Midnight Wave Marble captivates with its intense black surface interlaced with flowing white and grey veins. Its natural contrast and refined finish create a sense of luxury, elevating contemporary and classic spaces with enduring allure.

- ✓ Structural strength delivers dependable performance across architectural and decorative elements
- ✓ Low porosity and polish retention ensure lasting brilliance and protection against wear
- ✓ Reliable flexural stability supports design detailing and craftsmanship

Physical Properties	
Apparent Density (kg/m ³)	2,700 – 2,800
Water Absorption (%)	0.1 – 2.0

Mechanical Strength	
Compressive Strength (MPa)	120 – 150
Flexural Strength (MPa)	12 – 20

Dimensions, thicknesses, and configurations of slabs can be customised in accordance with specific project or client requirements. Technical data sheets, quality certifications, and laboratory test reports can be furnished upon request or as required by the project specifications. Images are digitally created for representational purposes to convey tone and character; natural stone may vary in colour and pattern.

All product descriptions, images, and specifications are provided for general information and illustrative purposes only. Natural stone is a product of nature; variations in colour, texture, and veining are inherent and should be expected. While every effort is made to ensure accuracy, the actual material may differ slightly from samples or photographs. Performance characteristics, such as durability and slip resistance, may vary depending on installation, finish, and maintenance. The company reserves the right to change product information without prior notice.
