Golden Dune brings nature's serenity into any space with its soft blend of greenish-yellow and buff tones. Its naturally textured surface and cool, earthy hues make it a versatile and timeless choice for outdoor and indoor design.

- ✓ Natural non-slip surface makes it ideal for patios, pool surrounds, and wet areas
- ✓ Remains cool underfoot in heat, making it perfect for warm climates
- ✓ Resistance to salt, heat, and mild acids makes it well-suited for coastal and outdoor environments

Physical Properties

Apparent Density (kg/m ³)	2,200 – 2,400
Water Absorption (%)	upto 10

Mechanical Strength

Compressive Strength (MPa)	100 – 150
Flexural Strength (MPa)	10 – 20

Dimensions, thicknesses, and configurations of slabs can be customised in accordance with specific project or client requirements. Technical data sheets, quality certifications, and laboratory test reports can be furnished upon request or as required by the project specifications. Images are digitally created for representational purposes to convey tone and character; natural stone may vary in colour and pattern.

All product descriptions, images, and specifications are provided for general information and illustrative purposes only. Natural stone is a product of nature; variations in colour, texture, and veining are inherent and should be expected. While every effort is made to ensure accuracy, the actual material may differ slightly from samples or photographs. Performance characteristics, such as durability and slip resistance, may vary depending on installation, finish, and maintenance. The company reserves the right to change product information without prior notice.
