

NATURAL STONE. GLOBAL TRUST.

every *stone*
has a *story*

A TRUSTED SOURCING PARTNER

We have built our position in the natural stone industry over four decades. We operate our own quarries with access to a broad sourcing network across India. Our large-scale production infrastructure enables us to support consistent supply and project-specific requirements throughout the year.

For global clients, this scale reduces the risk of dependency. Integrated quarry access, processing capability, and export experience qualifies us with material continuity, production control, and predictable delivery performance. This positions us not just as a natural stone supplier but as a long-term manufacturing partner, with the operational strength, compliance systems, and social responsibility expected by foreign businesses.

SUPPLY. QUALITY. RESPONSIBILITY.

A large-scale stone quarry operation. In the foreground, there are large, rough-hewn stone blocks. In the middle ground, a red tractor with a green canopy is visible, along with a yellow crane. The background shows a vast area of quarried stone blocks under a clear blue sky.

SCALE THAT SUPPORTS CONTINUITY

40 Years
of experience

400
people

4 Factories
in India

8 Owned Quarries
in North and South India

200 Sourcing Quarries
for uninterrupted supply

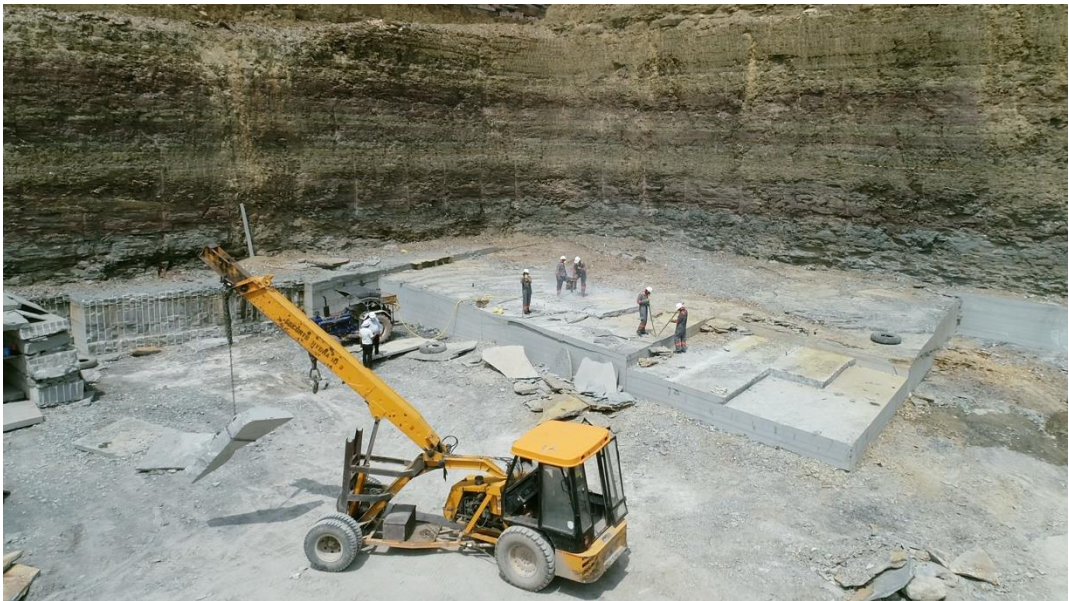

Natural stone sourcing requires more than product selection. International buyers need assurance on quality, workplace safety, environmental management, ethical sourcing, and long-term supply reliability. Our value lies in combining these requirements into a single manufacturing system.

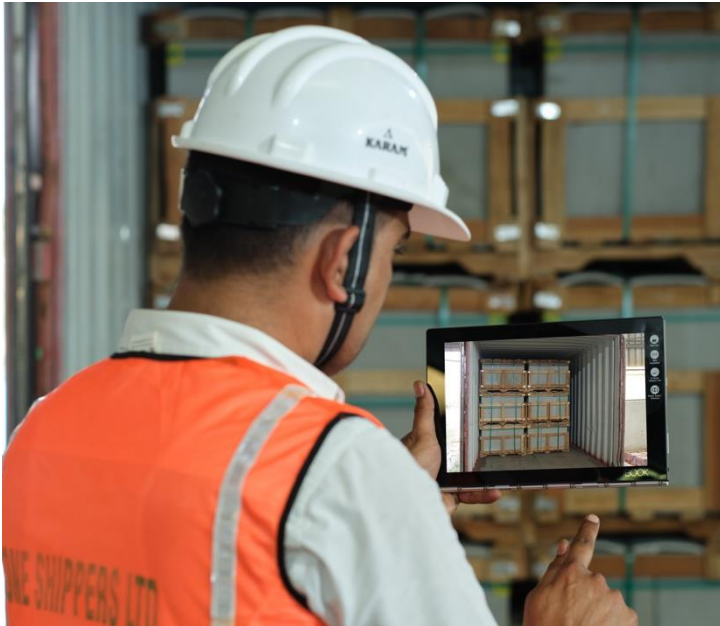

MANUFACTURING SCALE

Repeat supply, project volume and export continuity

QUARRY AND SOURCING DEPTH
Material access across categories

RESPONSIBLE EMPLOYMENT

Structured worker welfare practices

CERTIFIED SYSTEMS

Quality, environment, and safety assurance

COMMUNITY SUPPORT

Impact beyond commercial supply

MANUFACTURING STRENGTH AND SUPPLY RELIABILITY

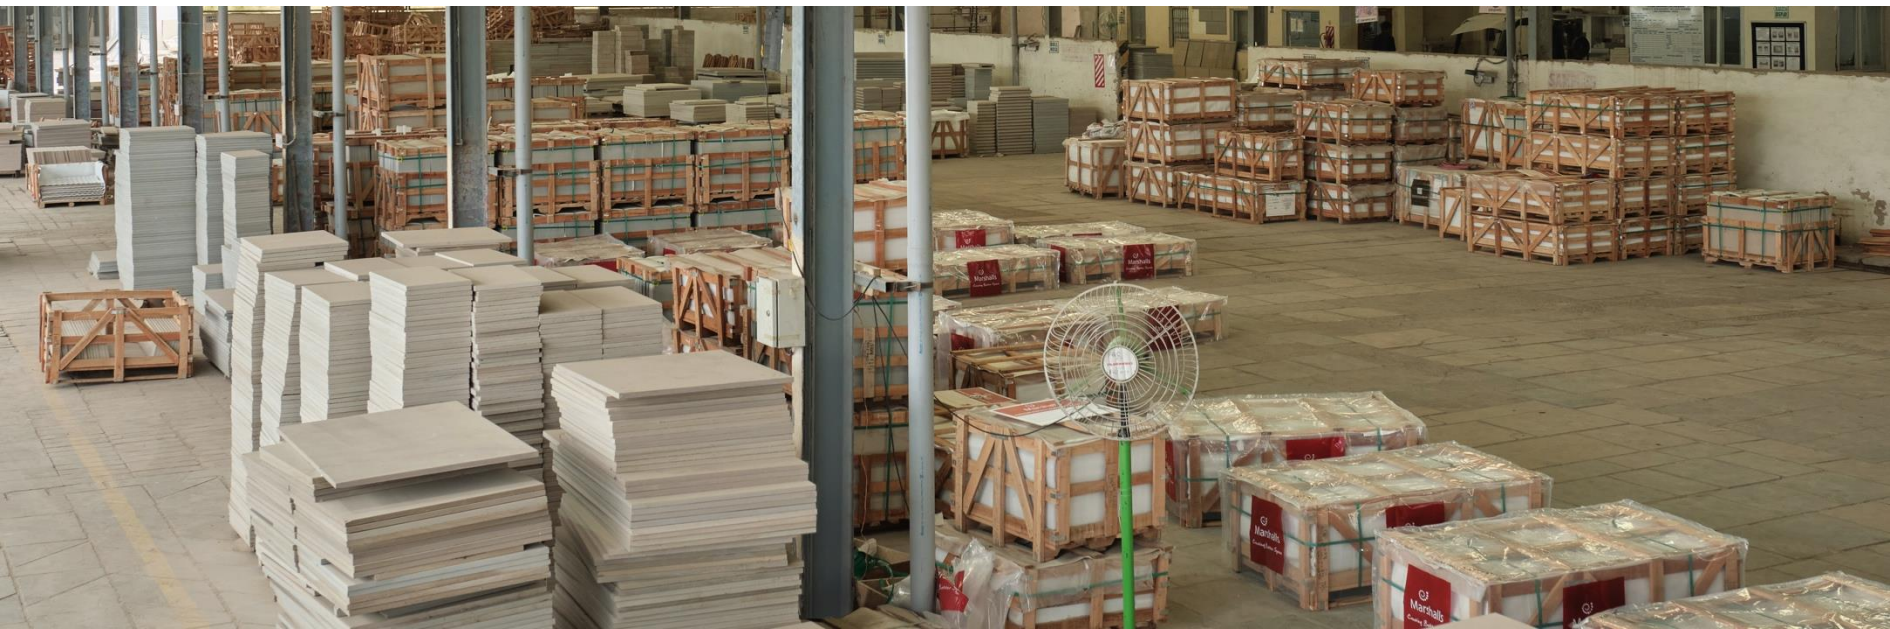

We focus on quality control and customisation. Our own quarries and access to an extensive sourcing network enables us to manage material availability across categories including quartzitic sandstone, sandstone, limestone, granite, slate, marble, schist, basalt, and other natural stone products.

Greater continuity of supply
Stronger control over finishing
Better ability to meet export schedules

2,000,000 m²
stone supplied annually

250,000 m²
sawing capacity

1,500,000 m²
calibration capacity

24,000 TONNES

Exclusively selected premium block stock
to ensure continuous year-round supply

CRAFTING USING TECHNOLOGY AND EXPERTISE

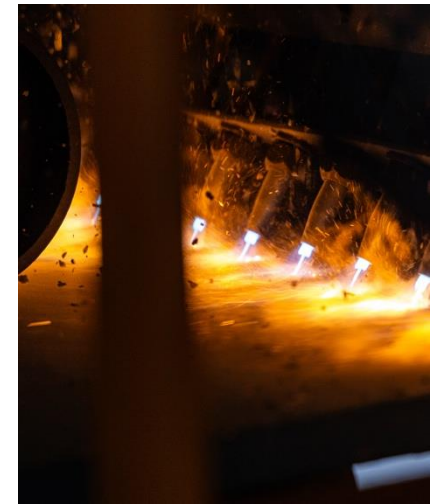

LIMITLESS SURFACE POSSIBILITIES

Equipped with advanced machinery for surface and edge finishes such as honed, blaze, oceana, sanded, and more testifies our manufacturing prowess and commitment to excellence. Our extensive capability with an expansive capacity of 250,000 m² across the floor enables us to deliver standard and custom finishes tailored to each client's unique design, project requirements, and application needs.

PRECISION MASONRY POWERED BY ADVANCED CNC TECHNOLOGY

We transform natural stone into finely crafted architectural and design elements. Combining advanced 5-axis profilers and 3-axis waterjets with skilled craftsmanship, we deliver bespoke stone creations.

From garden furniture and façades to customised landscape features, every piece reflects the perfect balance of engineering precision, timeless aesthetics, and enduring performance.

30 MULTI-BLADE DIAMOND TIP MACHINES

Largest sawing capacity in India

RESPONSIBILITY BUILT INTO THE SUPPLY CHAIN

The natural stone industry is labour-intensive, and responsible sourcing depends on how people are treated across the supply chain.

Regular assessments from our clients evidence our people practices and supply chain approach.

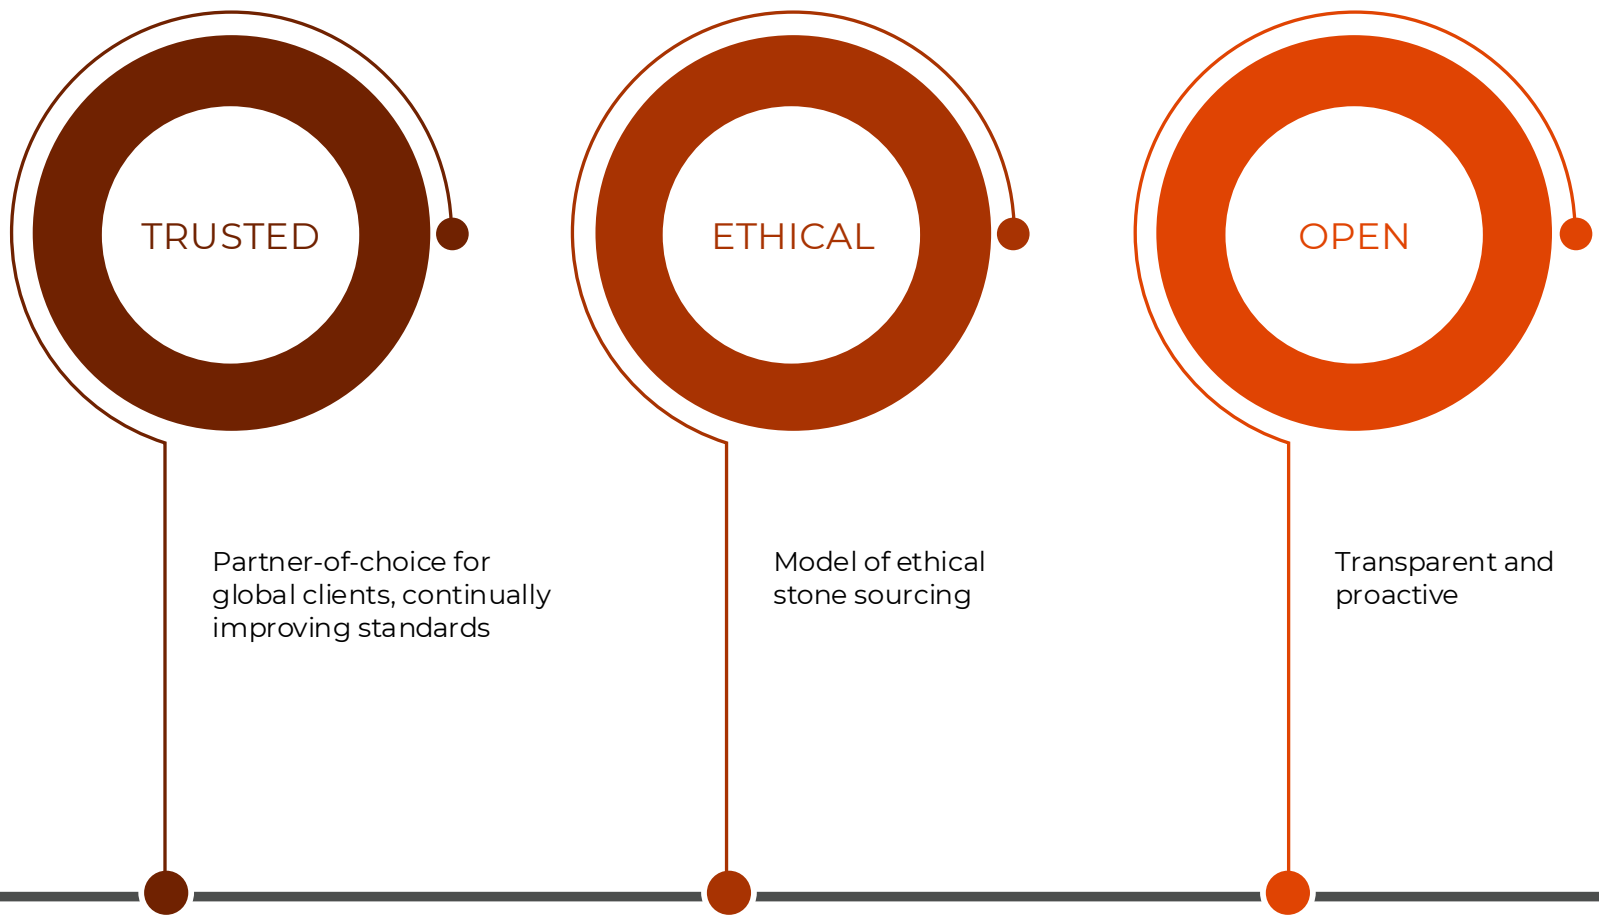

WORKER HEALTH AND SAFETY

In stone manufacturing, worker health is central to responsible production. We use dust-control systems and conduct spirometry tests for workers every six months to monitor lung function, with no reported health issues from silica exposure at our facilities.

A PEOPLE-FIRST ORGANISATION

We are recognised as a Great Place to Work organisation, a distinction especially meaningful in the natural stone manufacturing industry.

In a sector where operations are physically demanding, and worker well-being is closely linked to safety, productivity, and quality, this recognition reflects our focus on building a workplace grounded in respect, stability, and responsible employment practices.

Comprehensive safety systems
 Regular respiratory tests
 Freedom of expression for workers
 Bank transfers of wages
 Statutory social security enrolment
 Occupational health and safety measures
 Operational grievance mechanisms
 No forced labour, child labour, or discrimination

AUDITED BY LEADING BRANDS OVER DECADES

We have built reputation as a reliable sourcing partner through years of successful audits, assessments, and compliance reviews by leading brands, auditors, and international clients. These substantiate our claim in supplying natural stone products with the quality, ethical, operational, and compliance expectations of global markets.

Together, these reports demonstrate our ability to meet international standards for factory management, traceability, reliability, and environmental responsibility; positioning us as a dependable partner for importers.

For international buyers, our proven record highlights three key strengths: **dependable product sourcing, responsible supply chain practices, and the ability to meet client requirements year after year.**

We are more than a supplier. We are a trusted, accountable, and proven sourcing partner for reliable, ethical, and scalable natural stone supply chains.

Our responsibility extends to societies around our operations, with long-term initiatives in education, health, women's dignity, early childhood development, school infrastructure, worker welfare, medical support, and community relief.

LIGHT OF LIFE TRUST

We helped 200 public school students' complete secondary education and build confidence for future employment. We also provided COVID-19 relief to 200 families, and reached 3 centres across 4 schools, with girls making up 54% of beneficiaries.

PRAVEENLATA SANSTHAN

We supported 2,130 adolescent girls and women in rural Rajasthan with a menstrual hygiene management program, distributed 350 MeraPad dignity kits, reached 750 beneficiaries, and created livelihood opportunities for three girls through MeraPad production.

ROCKET LEARNING

A nonprofit improving early childhood education in India by partnering with government systems to expand access for children in disadvantaged communities.

AKANSHA FOUNDATION

Through academic learning, socio-emotional growth, well-being, and values-based education, it empowers 1,600 underserved children to build brighter futures.

We deliver with reliability, accountability, and care. It is our assurance as a supplier and the commitment of being a long-term partner. We help international buyers reduce sourcing risk through scale, material access, certified systems, responsible employment practices, and export experience.

Reliable supply for repeat and project-based orders

Stronger control over quality and finishing

Export-ready systems and documentation

Responsible production practices

Long-term partnership mindset

YOUR NATURAL STONE SOURCING PARTNER IN INDIA
